Academic Partnership Model Mission

Mission

Our mission is to build a strong foundation for the innovation pyramid at the academic institute level by fostering a vibrant and sustainable innovation and startup ecosystem. Through the establishment of incubation centres, we aim to empower academic institutions to become hubs of entrepreneurial activity, where students, faculty, and researchers are equipped to ideate, innovate, and create impactful solutions. By nurturing creativity and supporting startup growth, we aspire to bridge the gap between academia and industry, catalysing economic growth and social development in our communities.
